Examiner's Statement of Reasons for Allowance

The following is an examiner's statement of reasons for allowance: The prior art of record does not, alone or in combination, teach or disclose first and second coaxial circumferential, spaced apart magnets of opposed polarities supported to said pig body; first instruments supported by the pig body between said magnets and arranged to generate signals that are responsive to flux leakage servicing to provide first information as to anomalies in the pipeline interior and/or exterior surface; second instruments employing pulsed and sensing coil pairs supported by the pig body between said magnets and arranged to generate signals that are responsive to eddy currents induced in the pipeline interior surface servicing to provide second information as to anomalies in the pipeline interior surface; wherein said second instruments are energized only in response to signals generated by a signal processing circuitry (claim 1); by means of a plurality of sensing coils each paired with a pulsed coil measuring said eddy currents to determine the presence or absence of anomalies in the pipeline interior surface; recording the results of steps (c) and (f) to provide information as to the occurrence, size and exterior/interior locations of pipeline wall anomalies; and (h) energizing said plurality of pulse coils in step (d) only in response to signals generated by said signal processing circuitry (claim 10)

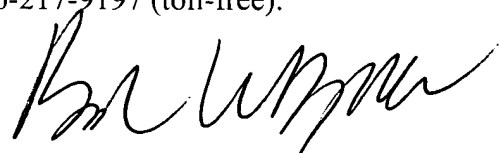

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
